

EXTRUDED AND CAST COATING MATERIALS - Any size, any shape

Coated rollers can provide the proper coating no matter what the application may be.

- SBR
- EPDM
- Neoprene
- Teflon®
- Urethane
- Natural Rubber
- Nitrile
- PVC
- Hypalon®

Numerous food grade materials available.

URETHANE COVERED WHEELS

Provide a soft ride for a sensitive product on a skatewheel conveyor.

URETHANE & VINYL SLEEVES

Sleeves can be less costly than cast or extruded materials. Available in both vinyl and urethane, these rollers provide excellent value with shorter lead times.

TAPERED URETHANE ADAPTORS

Designed to fit straight rollers.
