

## **EXTRUDED AND CAST COATING MATERIALS - Any size, any shape**

Coated rollers can provide the proper coating no matter what the application may be.

- |            |                  |            |
|------------|------------------|------------|
| ■ SBR      | ■ Teflon®        | ■ Nitrile  |
| ■ EPDM     | ■ Urethane       | ■ PVC      |
| ■ Neoprene | ■ Natural Rubber | ■ Hypalon® |

Numerous food grade materials available.

## **URETHANE COVERED WHEELS**

Provide a soft ride for a sensitive product on a skatewheel conveyor.

## **URETHANE & VINYL SLEEVES**

Sleeves can be less costly than cast or extruded materials. Available in both vinyl and urethane, these rollers provide excellent value with shorter lead times.

## **TAPERED URETHANE ADAPTORS**

Designed to fit straight rollers.
